CAREER MATCH (STANDARD)

Who has Career Match successfully been used by?

- ✦ **Students and Graduates** that are struggling to know what career to embark on – having a clear idea about this early in your life will help you to choose the right education and training courses. This prevents you wasting money and time!
- ✦ **People who are in a job that they dislike** – taking Career Match will help you to discover what tasks, duties and responsibilities you enjoy and what kinds of activities you dislike. By understanding this, you can begin to understand why you are in a job that you don't enjoy and think about steps to change this.
- ✦ **People who are thinking of making a career change** – changing career paths at any time in our lives can be a difficult decision to make. Often we feel frustrated that we may have wasted years studying and working towards a career that we don't enjoy. It is therefore really important that you choose the right career path at this stage to avoid repeating the same mistakes.
- ✦ **People who are deciding what qualifications and courses to take** – embarking on any kind of formal study programme is an expensive commitment to make. Student fees are often between £1000 and £10,000 a year depending on the course. Taking Career Match will help you to understand if the course you are considering is the right 'fit' for your interests and personality.

What does Career Match consist of?

Career Match – Standard

You will be required to complete an online assessment that has been repeatedly shown to be one of the best tools available for identifying categories of work that match personal interests.

The report generated from your individual responses will provide you with information about specific occupations that align with your interests as well as details about your personal work preferences in relation to areas such as leading and taking risks.

This includes detailed information about general career areas that match your interests (such as Finance & Investing or Marketing & Advertising) before breaking this down further to outline specific career paths that are a great match for you. This could include roles such as Broadcast Journalist, Chef, Editor, Librarian or many others.
